

IGCE CHEMISTRY Syllabus

8th Form

- Chapter 1 : Kinetic Theory And Diffusion
- Chapter 2 : Atomic Structure
- Chapter 3 : Bonding
- Chapter 4 : Structure
- Chapter 5 : Formulae And Equations

9th Form

- Chapter 11 : Separation
- Chapter 7 : Oxygen And Oxides
- Chapter 22 : Rams And Moles
- Chapter 23 : Calculations From Equations
- Chapter 8 : The Reactivity Series
- Chapter 9 : Acids
- Chapter 10 : Making Salts
- Chapter 26 : Titration Calculations
- Chapter 11 : Analysis
- Chapter 12 : The Periodic Table

10th Form

- Chapter 13 : Electrolysis
- Chapter 24 : Electrolysis Calculations
- Chapter 14 : Introducing Energy Changes In Reactions
- Chapter 25 : Energy Calculations
- Chapter 6 : Rates Of Reaction
- Chapter 15 : Introducing Reversible Reaction
- Chapter 16 : Manufacturing Chemical
- Chapter 17 : Metals
- Chapter 18 : Introducing Organic Chemistry
- Chapter 19 : Alkenes, Alkenes And Alcohols
- Chapter 20 : Useful Products From Crude Oil
- Chapter 21 : Polymers
